EVERY CONNECTION has a starting point.

OCLC Grid Services

Roy Tennant
Senior Program Officer

OCLC Research
What is OCLC Grid Services?

- Not grid *computing*, grid *services*
- Web Services: machine-to-machine services
- But... “give SOAP a REST”
- Exposes data (e.g., MARC records) and services (e.g., related works) in machine-processable form
Why OCLC Grid Services?

• Gain internal operational efficiencies
• Provide added value to member libraries
• Develop community to advise us on external needs and priorities
OCLC Grid Services

• Examples of Grid Services:
  • Identifier Services (e.g., xISBN, xISSN)
  • Registry Services (e.g., Institution Registry)
  • Experimental Services (e.g., Terminologies, often coming out of OCLC Research)
  • WorldCat Search API

• Support Service: Developer’s Network
• Find all related editions of a book or serial

• Easily incorporated into library catalogs, Web sites, and other library applications

100+ ISBNs for *Sorcerers Stone*

32 English (US and UK)
9 Spanish
3 Russian, German, Finnish, Latin
2 Chinese, Czech, French, Korean, Norwegian, Persian, Polish, Portuguese, Romanian, Turkish, Welsh,
1 Afrikaans, Albanian, Armenian, Basque, Bengali, Georgian, Galician, Gaelic, Ancient Greek, Greek, Gujarati, Hindi, Hungarian, Icelandic, Italian, Japanese, Latvian, Lithuanian, Malayalam, Sherpa, Slovenian, Swedish, Thai, Ukrainian, Urdu
16 Audio
59 Book
A global directory of libraries, their locations, contacts, and the services they provide

Free for all libraries to maintain and share with partners

Pre-populated with data we already have, augmented by libraries and partners

Centralized data essential for delivering content and services more efficiently on the Web
Create a new WorldCat Registry profile

Fax:
E-mail Address:
Home Page: http://www.lib.washington.edu/

Services:
IP Addresses:
Online Catalog: http://catalog.lib.washington.edu
OpenURL Resolvers: https://catalog.lib.washington.edu/4050/p?opendbl:128b718c;OpenURL
Virtual Reference:
The WorldCat Search API

- Searches with familiar protocols: OpenSearch and SRU
- Returns results in XML: RSS, Atom, MARC21 XML, Dublin Core
- Sorts library locations geographically (using a zip code, an IP address that is associated with a location, or a country)
- Can reformat records as standard citations ... APA, Chicago, Harvard, MLA, and Turabian
The URI Evaluator offers an easy way to test API requests and evaluate their responses.

Look for civil war in libraries near 84002

Photographs and text trace the life of the Civil War President.

Filled with fresh interpretations and information, punctuating old myths and challenging new ones, Battle Cry of Freedom will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War—the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry—and then moves into a masterful chronicle of the war itself—the battles, the strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war—slavery—and adopt a policy of emancipation as a second war aim. This "new birth of freedom," as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing "Second American Revolution" we call the Civil War, a war that transformed a nation and...
The WorldCat Widget works with SRU Dublin Core results. From there, links lead to library locations in WorldCat.org.

The CiteMe Widget uses OpenSearch results, with each citation automatically formatted based on the user’s preference: APA, Chicago, Harvard, MLA, or Turabian.

New Research Resources for Business, Education, and Social Sciences

These new databases are now available from the University of Houston Libraries:

G2 Voting and Elections Collection: It integrates data, authoritative analyses, concise explanations, and historical material to provide a research and reference tool on voting and elections in America. From the American voter, to major and minor political parties, to actual races for Congress, the presidency, and governorships, the collection provides context-driven intelligence on the state of elections in America. Election data can be downloaded.

Educational Administration Abstracts: It provides bibliographic records covering essential areas related to educational administration, including education research, higher education administration theory, and other areas of key relevance to the discipline.

Health and Psychosocial Instruments (HaPI): It provides bibliographic information about behavioral measurement instruments. Information in the database is abstracted from hundreds of leading journals covering health sciences and psychosocial sciences. Additionally, instruments from Industrial/Organizational Behavior and Education are included.

Small Business Resource Center: This database provides relevant, authoritative, and easy-to-understand information...
Barack Obama in his own words

WorldCat Hackathon, New York Public Library
WorldCat Developer's Network

The WorldCat Developer's Network is a community of developers collaborating in a "sandbox" environment in order to propose, discuss and test WorldCat Grid Services. This open source, code-sharing infrastructure improves the value of OCLC data for all users by encouraging new Grid Service uses.

The WorldCat GRIP Developer's Network provides:
- help each other;
- exchange ideas;
- share software code with other network members and the community-at-large in an open source environment; and,
- provide feedback points for the library community to engage with.

How do I participate in the Network?

- **Coming!** WorldCat Hackathon, November 7-8 at the New York Public Library!
- Membership in the network is open to any developer in the library services industry, and to any other informed, interested user of library services.
- There is no charge to be a member of the network.
- OCLC hosts this wiki space and a blog for members to use for communication and code posting.
- OCLC hosts the Developer's Network Listserv. To subscribe, visit this page and look for WC-DEVNET-L at the bottom. Participation in mailing lists is open to anyone, as is access to any information on the Developer's Network web site.
